

Remember safe flying is fun flying!

- Never fly near power lines, electricity and kites don't mix.
- If you hear thunder or lightning, put your kite away.
- Trees are famous "kite eaters", fly in open areas.
- Be respectful of others, never fly over people.

For more information, visit - <http://www.kite.org>

There is no wind
here, keep going
until you find the
kite flying field!
